

FLAME
UNIVERSITY

Undergraduate Program
A Liberal Education

**Your world is not one dimensional.
At FLAME, nor is your education.**

How does **FLAME University** provide a liberal education?

Being the pioneer of liberal education in India, FLAME University delivers the country's premier interdisciplinary undergraduate education experience that gives you the chance to:

- Explore a range of disciplines that cultivate a spirit of inquiry, curiosity and openness to multiple perspectives, thus providing breadth of knowledge.
- Make informed major-minor discipline choices, thus providing depth of knowledge.
- Identify and expose yourself to ground realities that enable you to make connections between academic work and the real world.
- Form a deep connect with faculty, adhering to the Guru-Shishya philosophy, that ensures individual attention and quality growth.
- Collaborate inside and outside of classrooms in a fully residential community that inspires creativity, innovation and responsibility.
- Maintain an unwavering focus on developing fundamental skills such as analytical reasoning, critical thinking, communication, perspective building, digital literacy, financial literacy and problem solving that lead to better career preparation.
- Operate in multilingual and multicultural settings at an international level, by having demonstrable experience of living and learning in a culture different from your own.

Opportunity to explore **various disciplines**

Avenue to **combine diverse disciplines**

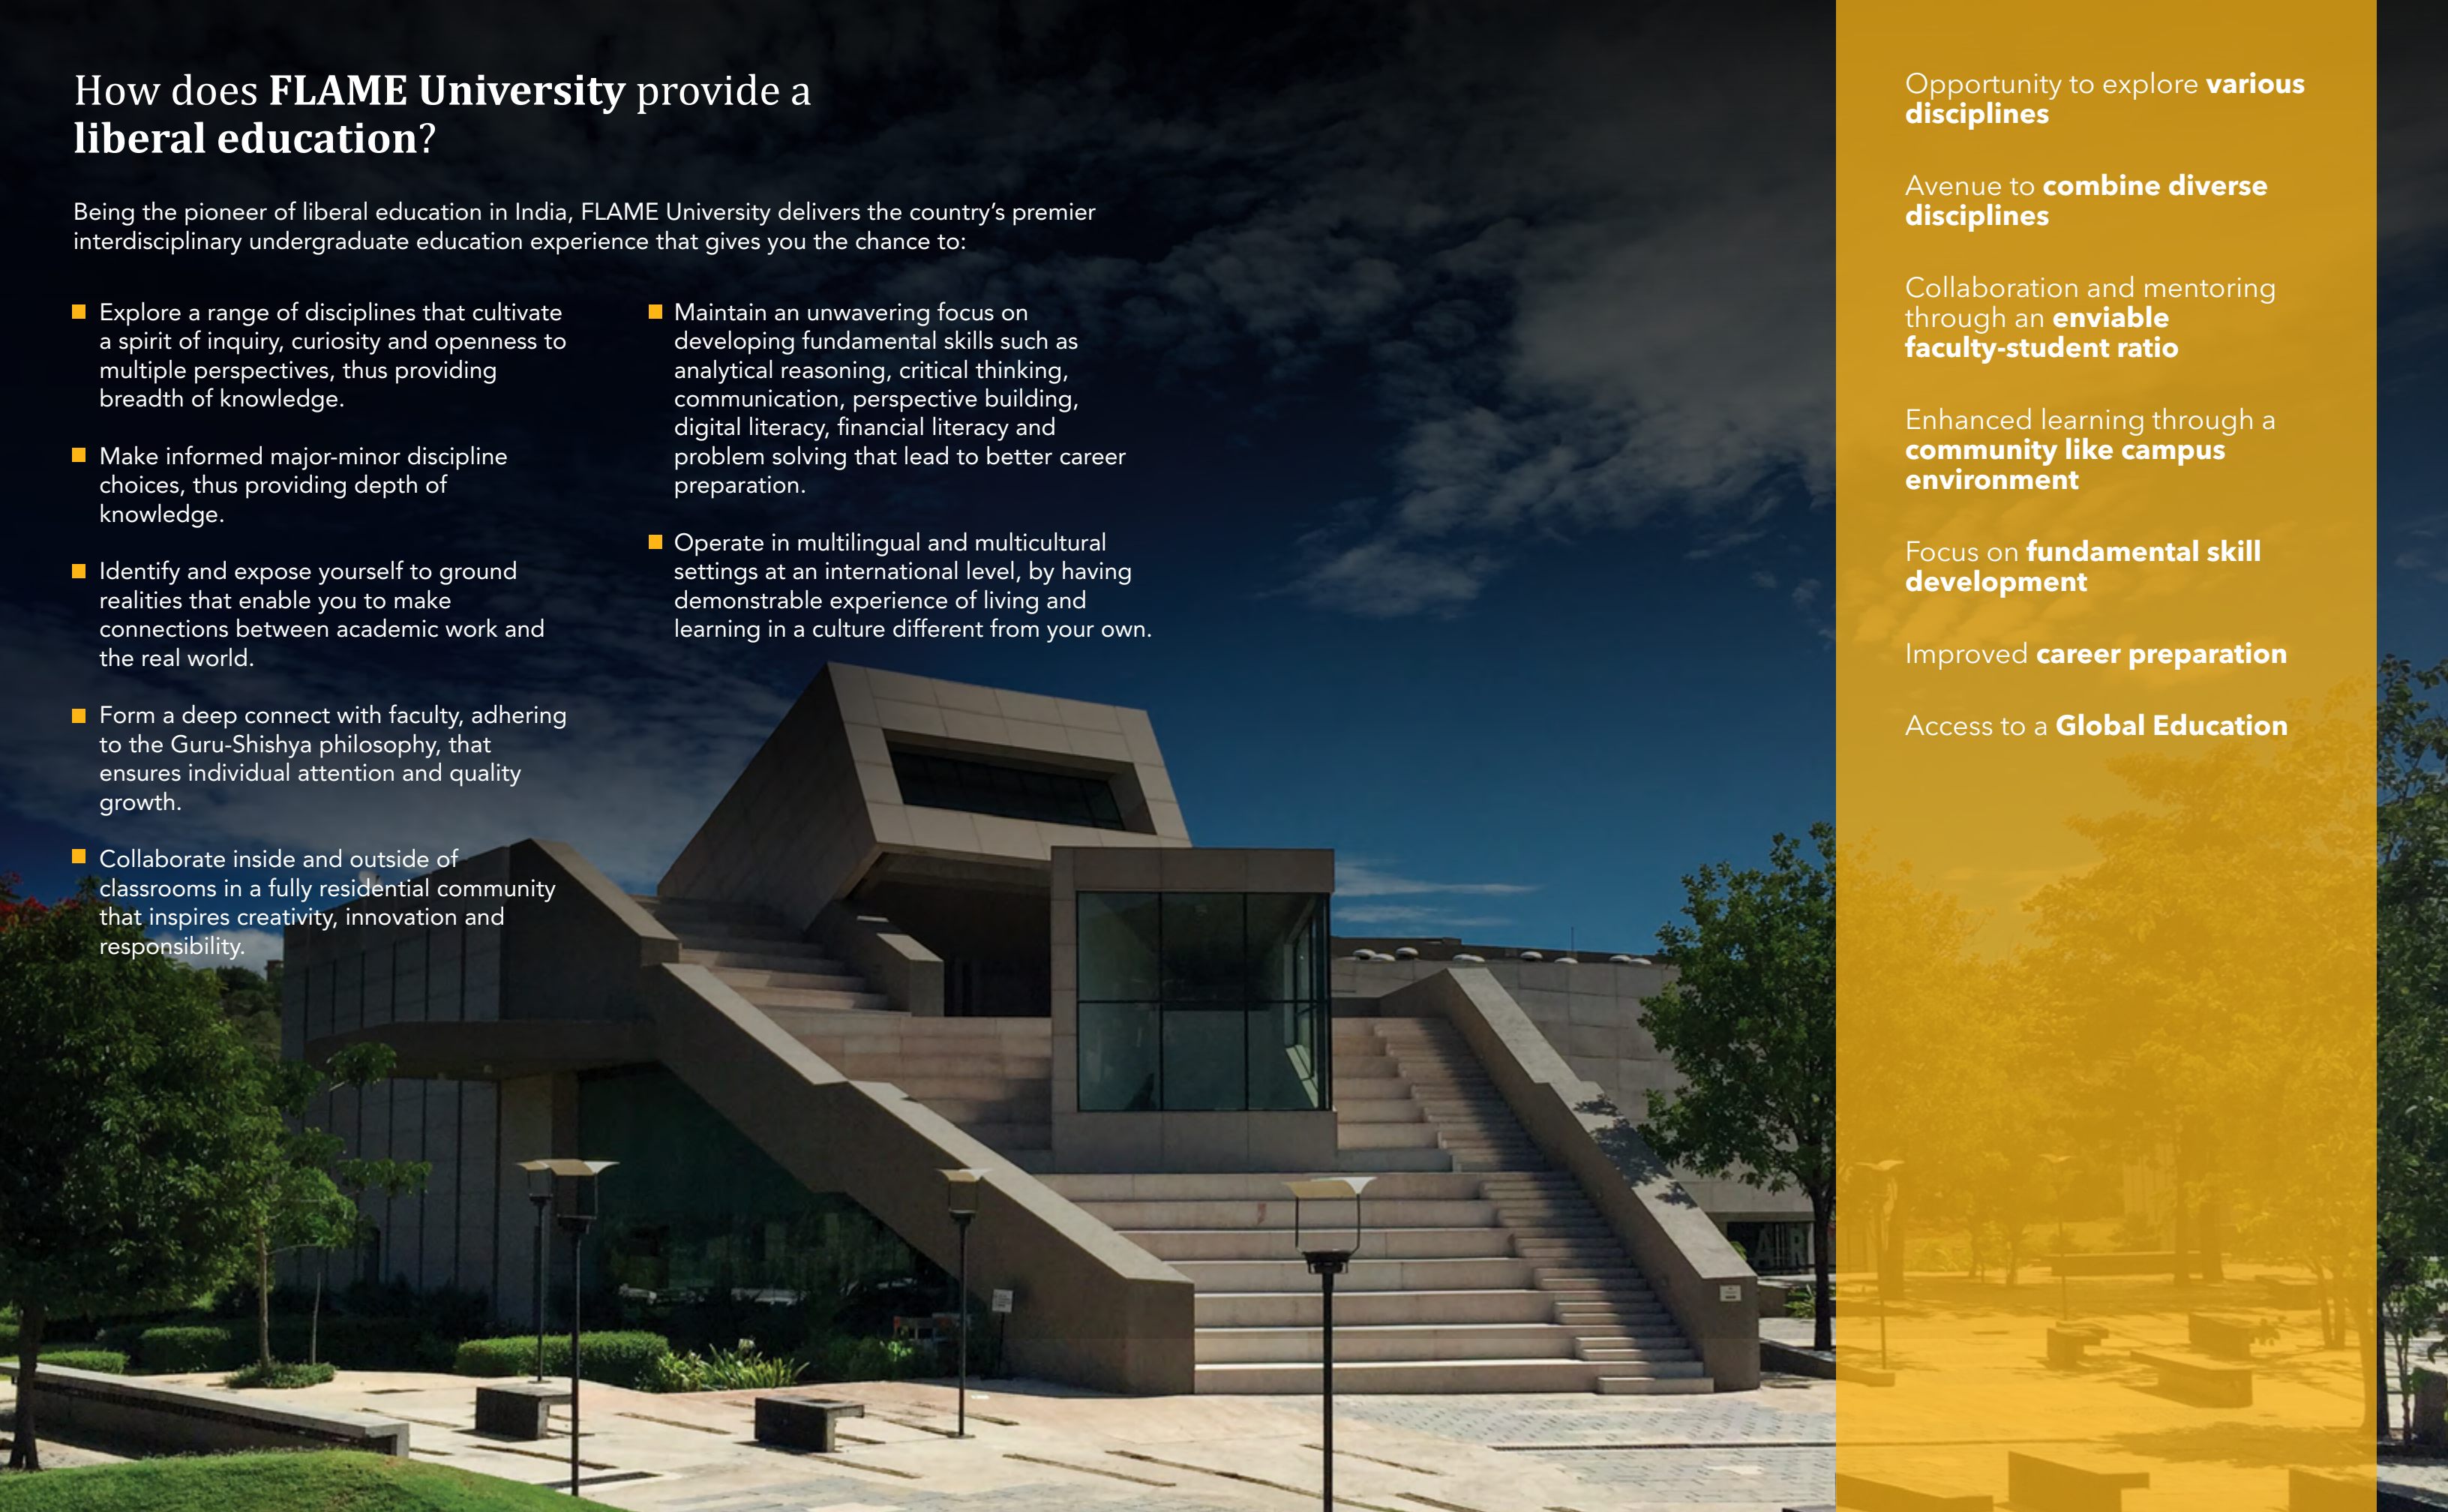

Collaboration and mentoring through an **enviable faculty-student ratio**

Enhanced learning through a **community like campus environment**

Focus on **fundamental skill development**

Improved **career preparation**

Access to a **Global Education**

Passion
not **COMPULSION**

FLAME University gives students the academic freedom to explore various disciplines before zeroing in on their choice of specialization. This is a significant innovation in the Indian context, where, at the undergraduate level, students typically have to follow choices they have made during their Higher Secondary Certificate programs.

This interdisciplinary ethos at FLAME gives you time to discover what you are passionate about, and helps you break free from traditional moulds of Arts, Science or Commerce. Exploring diverse disciplines broadens one's perspective and inculcates abilities to reason through various issues and formulate cogent arguments.

FOCUSED

yet *flexible*

At FLAME University, you have the unique opportunity to focus on two areas of specialization (a major and a minor) in varying degrees of depth. Our students can design their own major-minor combination from over 350+ such possibilities. This flexibility to straddle interests in distinct disciplines leads to very interesting combinations. In addition to making the program uniquely interdisciplinary, developing a deep and critical grasp over the chosen disciplines is of primary importance.

Personal
yet **PROFESSIONAL**

FLAME University boasts of an enviable faculty-student ratio of 1:11. Our faculty members are not only exceptional teachers, but also mentors and advisors who will guide your curiosity to its fullest potential. They are an acclaimed group of scholars and researchers with outstanding national and international education backgrounds, whose teaching is augmented by the contemporariness of their academic knowledge and real world experience.

A constant feedback loop between our faculty and students guarantees a collaborative and mature learning environment. This is the foundation for enhanced personal growth and professional development.

LEARNiNG
not **SCHOOLING**

Learning at FLAME University familiarizes our students with a wide array of issues and challenges of the real world. FLAME University has developed a set of experiential learning courses, like the Developmental Activities Program, Discover India Program and the Summer Internship Program, that expose students to ground realities and enable them to make connections between academic work and the real world.

These experiential learning courses are designed to get you to recognize the socio-economic differences in India, to learn more about India's cultural heritage, to inculcate ethical and social responsibility and to help you decide the place you will occupy in the world of work.

Additionally, our collaborative, exchange and study abroad programs provide students a global perspective on education and research, and prepare them for leadership and service in an interconnected globalized world.

Supportive yet **COMPETITIVE**

The FLAME University campus is a fully residential community that nurtures a network of friends with care and empathy, so that students not only have a sense of freedom to take responsibility for themselves, but also feel constantly guided and looked after.

This helps generate and maintain a learning atmosphere that is informal yet respectful, intimate yet open, and supportive yet competitive. Our fully residential campus policy plays a pivotal role in providing you with an environment of individual and collective development.

LIFELONG

not **TEMPORARY**

Liberal education at FLAME University not only equips students for careers immediately after graduation but also prepares them with transferable skillsets that last a lifetime. Through the interdisciplinary education framework, students are able to identify intersections between disciplines and connect the dots across seemingly disparate areas. Focus on developing fundamental skills like analytical reasoning, critical thinking, superior communication, perspective building, digital literacy, financial literacy and problem solving further augments professional expertise.

About FLAME UNIVERSITY

Vision

FLAME University exists to build an aspirational destination for students and faculty, to push the design and nature of studies and to create a societal upgradation phenomenon particularly in the fields of liberal education and leadership. Further, we will be the leader in creating and disseminating knowledge in the disciplines we offer. With that, we will pioneer the advancement of knowledge in these disciplines.

We believe in the uninhibited sharing of "Gyan" or knowledge, since the ultimate goal for all human beings is the accumulation of knowledge. With this dictum, FLAME University aims to inculcate a habit of lifelong learning and inquiry amongst students, leading to the advancement of their well-being. At the core of everything we do is a desire to give something back to society in a noble manner.

We are driven to being one of India's most respected and reputed centers of learning - the one destination of choice for higher education in the nation for learners and teachers.

Schools

Our different schools guarantee a wide array of courses to choose from, interdisciplinary major-minor combinations and an unforgettable real-world learning experience.

FLAME School Of **Liberal Education**

FLAME School Of **Business**

FLAME School Of **Computing and Data Sciences**

FLAME School Of **Design, Art and Performance**

Message from the Vice-Chancellor

Welcome to FLAME University – the pioneer of liberal education and one of India’s most reputed and respected universities.

Offering interdisciplinary courses, our liberal education programmes groom students to be future ready and open doors to multiple career opportunities suited to students with diverse interests and aspirations. Our programmes have been crafted uniquely to foster holistic thought, balance breadth of learning with depth as well as embrace traditions and the future with equal ease. More than 350+ major-minor choices are available to our undergraduate students, spanning multiple universes of knowledge, from economics to psychology, from computer science to public policy, from finance to the fine arts and much else besides.

Along with a capacity for analytical thought and experiential learning, FLAME broadens horizons, inculcates leadership skills, team-work, social responsibility and communication skills. All the while, students are guided by an outstanding faculty, who are not only dedicated to mentoring students but are among the country’s thought-leaders. Our enviable faculty-student ratio of 1:11 ensures that students receive careful and customized attention.

All this takes place in the most beautiful and educational of settings. Our campus is spread over 60 acres in a lush green valley in Pune, and features state-of-the-art architecture and technology. A plethora of lecture halls, studios, conference rooms, and the world-class Vivekananda Library help make the FLAME academic experience both fun and rigorous, while the quality of residential, dining and sports infrastructure ensure all-round well-being. Our campus is always alive with the sights and sounds of nature, as well as events and activities organized by the strong student community on campus. For our students, the time spent at the campus becomes both enriching and unforgettable for life, a fact endorsed by the rapidly growing FLAME alumni network.

FLAME has consistently been expanding its global connections and boasts of educational and research collaborations with Wellesley College, Amherst College, Indiana University Bloomington, Babson Collaborative, and Sciences Po, to name but a few. Students can benefit from interactions with visiting scholars, go on international exchange programmes, and join the global network of leaders and intellectuals. I invite you to come and be a part of the exciting journey at FLAME.

Dr. Dishan Kamdar
Vice-Chancellor, FLAME University

Academics

**Perspective building
through multi-dimensional learning**

Interdisciplinary education is at the heart of the undergraduate program at FLAME University. It allows one to question preconceived notions one holds in one's mind, overcome them and adopt broader perspectives with which one can approach complex problems. It enables one to see the existing connections between disciplines and, as a result, provides the capacity to integrate ideas and apply knowledge contextually. Interdisciplinary education helps advance critical thinking, identify insights from multiple disciplines, and promotes lasting and significant learning. In fact, the world is interconnected and multi-dimensional. Why not your education?

Hence, the curriculum at FLAME University's undergraduate program embraces traditional wisdom and interconnected thinking with equal ease. Our course content and experienced faculty enable the learner to wrestle with contemporary issues and as a result, instill curiosity, broaden horizons and inculcate leadership skills.

An unwavering focus on fundamental skill development and career preparedness is at the core of all our undergraduate courses. You are encouraged to think of your ambitions and choose a combination of courses accordingly. Our academic program, anchored in liberal education, is designed to equip students with the necessary knowledge and skills that will enable them to carve a significant role in the field of their choice.

To learn at FLAME is to make the most of creative collaboration opportunities on campus, immerse yourself in experiential learning programs and grow exponentially.

Educational objectives

FLAME University encourages you to bring an open mind and a spirit of curiosity to your undergraduate degree. Our learning objectives are designed to make you gain the most from your FLAME experience.

BREADTH OF KNOWLEDGE

By radically departing from traditional models of higher education, FLAME allows students to take courses across disciplines such as humanities, social sciences, physical sciences, natural sciences and the arts. This multi-disciplinary exposure enables the learner to appreciate the world through an interconnected lens and decide on a career path accordingly.

EXPERIENTIAL AND ANALYTICAL LEARNING

By learning about our culture and society through curated experiential learning courses delivered as a part of our rigorous undergraduate program, students learn to find their place in the world. They gain access to an interdisciplinary perspective with which to understand themselves and the world.

FUNDAMENTAL SKILL DEVELOPMENT

By stressing on fundamental skills throughout the undergraduate program like analytical and critical reasoning, written and oral communication, digital literacy, financial literacy, adaptability and problem solving by applying different thinking frameworks, we equip students with the necessary tools to excel in their academic and career endeavours.

IN-DEPTH UNDERSTANDING

Having exposure to multiple cognate areas in no way compromises the depth of content one can reach and understanding one can achieve in the academic discipline of their choice. This depth enables students to appreciate the interconnectedness between different disciplines and develop new insights to problem solving. At FLAME University, students receive deeper instruction in a wider range of topics in their specialization, thereby enhancing their ability to make informed, independent decisions.

ETHICAL AND SOCIAL RESPONSIBILITY

By being aware of their social responsibility and the ethical implications of their actions, students learn to take the initiative to make the world a better place. By encouraging our students to ask questions about the fundamental nature of things and guide them in their own exploration, we develop sensitive and humble individuals, eager to take responsibility for creating a better future for all of us.

Skills inculcated

Analytical reasoning and critical thinking skills

Written and oral communication skills

Problem solving skills

Adaptability

Personal and social responsibility

Professional, job-specific and technical skills

Collaborative, interpersonal and intercultural skills

Decision-making skills

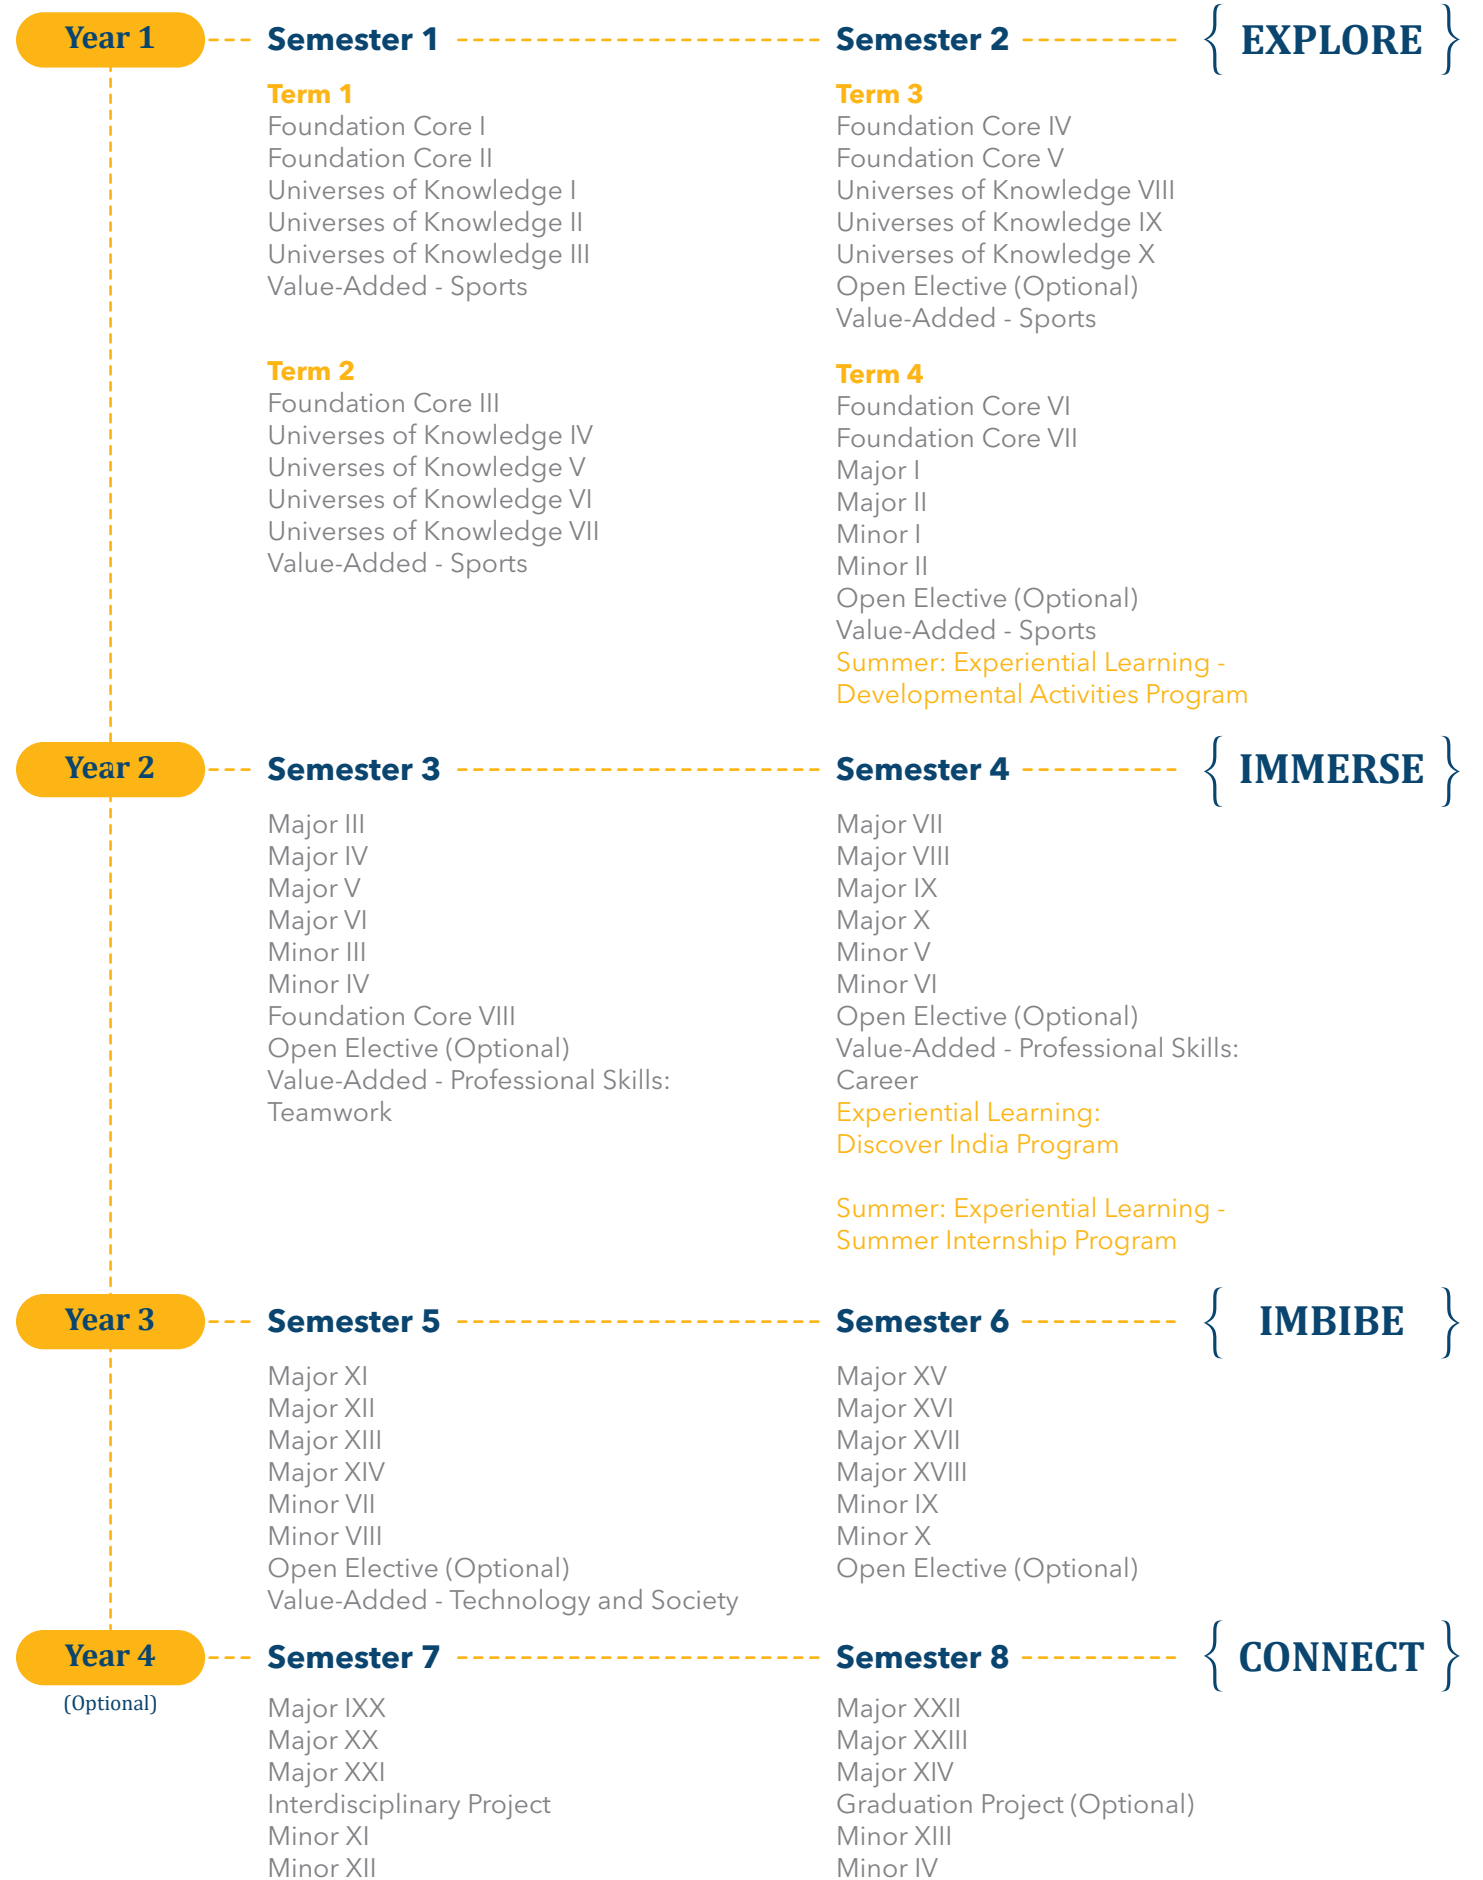

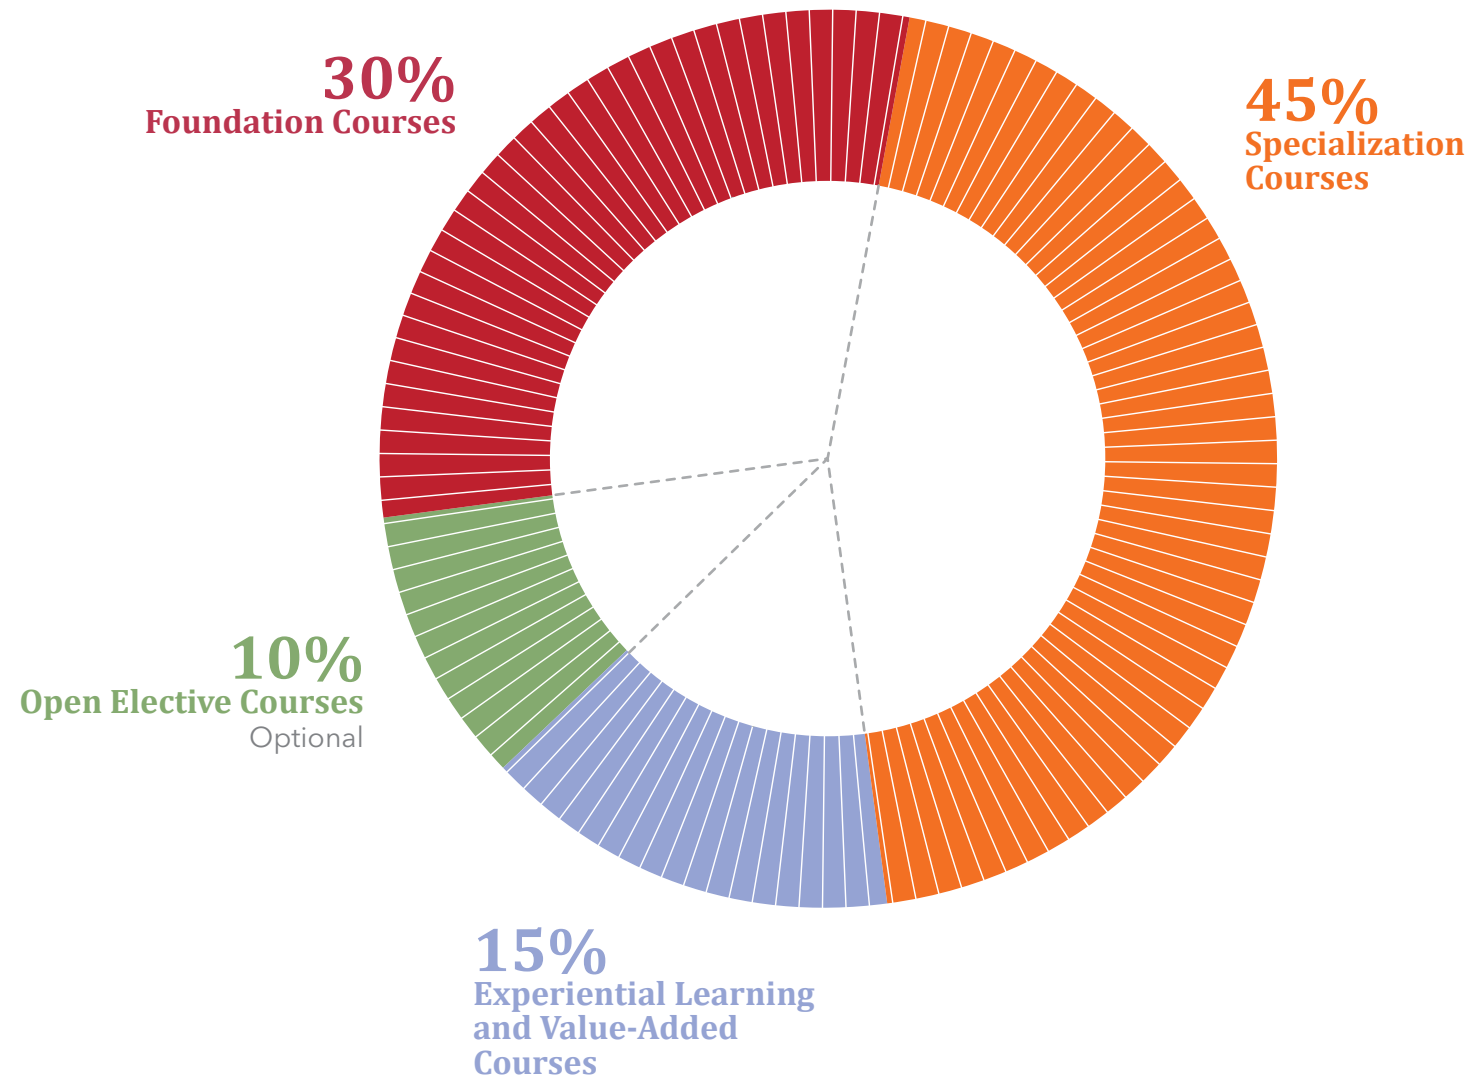

Perspective building skills

Learning design

FLAME University offers an exceptional 3-year and optional 4-year interdisciplinary undergraduate program with the degree nomenclature determined by the major that the student chooses to pursue.

FLAME University's 3-year undergraduate program consists of:

Undergraduate degrees offered

- Bachelor of **Arts (B.A.) / (B.A. [Hons])**
- Bachelor of **Science (B.Sc.) / (B.Sc.[Hons])**
- Bachelor of **Business Administration (BBA) / (BBA [Hons]) / (BBA [Communications Management]) / (BBA [Communications Management] [Hons])**

Foundation Courses

FINDING YOUR PASSION

Eight core courses. Five universes of knowledge. Interdisciplinary learning redefined.

At FLAME, ideas come home to flourish. Our foundation courses allow students to harness the power of ideas and explore various disciplines before zeroing in on their choice of specialization.

For those who have clarity about what their area of study might be, the foundation courses provide an opportunity to broaden their realms of knowledge.

The core component of the foundation courses is mandatory and adds to our students' fundamental skillset. These foundation core courses foster independent thought and a critical approach to content.

In addition to the foundation core courses, students get the opportunity to explore various cognate disciplines, which are grouped into five broad knowledge areas called 'universe'. The five universes of knowledge at FLAME are the Humanities, Social Sciences, Fine and Performing Arts, Physical and Natural Sciences and Global Studies. In order to acquire the breadth that a liberal education engenders, students are required to take at least two courses from each universe of knowledge, preferably from different disciplines. This structure exposes students to modes of thought within these universes.

Naturally, the fundamental goal of the foundation courses is to cultivate within students a spirit of inquiry and openness to multiple perspectives. These courses are designed to equip students with the skills of intensive reading and academic writing, and to familiarize them with theoretical concepts, frameworks and issues that yield themselves to different disciplines.

* Interdisciplinary majors. Not offered as minors. Only offered as majors. No minor combination possible. | ** Only offered as minors. | *** Only available as major in the 3-year undergraduate program. | **** 3-year undergraduate honours program available without minors.

Specialization Courses

IN-DEPTH UNDERSTANDING

With 24 majors to choose from, each offering a choice of 8 - 19 corresponding minors, students leave FLAME confident, prepared and more inclined to take on the world.

The specialization courses are where the ideas consolidate. These courses provide students the opportunity to delve deeper into academic areas of their choice. Students are expected to identify their areas of specialization after completing their foundation courses. The primary area of specialization is known as the major, and the secondary area of specialization is the minor. With over 350 such possible combinations, specialization courses have a unique research focus to empower students to develop a critical grasp over the disciplines and be in a position to generate original insights. While having a minor is highly recommended, students can complete their graduation requirements without one as well. This can be achieved by attending various courses across disciplines.

Majors Offered

- Economics****

- Dance**
- Music**
- Theatre & Performance Studies**

Experiential Learning Courses

AN IDEA TAKES WINGS

From consolidation to application.

At the heart of all learning is the way one processes knowledge to make meaning. Experiential learning engages students in critical thinking, decision making and contextually dependent problem solving that encourages lateral thinking.

Our special experiential learning courses such as the Developmental Activities Program, the Discover India Program and the Summer Internship Program take you a step closer to your professional development.

The Developmental Activities Program (DAP) is devoted to building an understanding of the social sector. Here, students learn about the history and evolution of social work in the classroom and complement this learning with a month-long internship with a NGO of their choice.

The Discover India Program (DIP) enables students to learn more about India's rich history and culture. Students, in groups, conduct secondary research on a topic relating to India's cultural heritage and participate in a field trip to collect primary data. This teamwork opportunity involves in-class instruction, research design, survey methodologies and formal reporting and presenting.

A Summer Internship with a reputed organization is also a mandatory component of the undergraduate program. This is integral to developing an understanding of the connections between the academic world and the world of work.

Value-Added Courses

Value-Added courses are part of the curriculum designed to provide necessary skills to increase the employability quotient and equipping the students with essential skills to succeed in life. They include:

1. Sports
2. Professional Skills: Teamwork
3. Professional Skills: Career
4. Technology and Society

Open Elective Courses (Optional)

Our undergraduates can also sample courses through open electives in disciplines outside their areas of specialization to pursue multiple passions that suit their multifaceted personalities. Students can also utilize open electives by going deeper into their own specializations as well. These open electives are optional in nature.

 **3 year undergraduate honours available without minors.

4th Year Undergraduate Program (Optional)

The optional 4th year builds upon the learnings of the first three years and will enable the student to realise the full potential of liberal education. It empowers the student to make concrete connections between disciplines and prepares them with the knowledge and skills to kickstart and succeed in their respective careers.

The courses in the 4th year are highly specialised and the topics covered are at the advanced undergraduate or post-graduate level with an added focus on research and scholarship in interdisciplinary areas.

The 4th year includes a mandatory industry summer internship and an interdisciplinary major project (IMP). The IMP is group-based research project in which a team of 4th

year students from diverse specialisations work together under the guidance of a faculty member to address an issue or solve a problem that is of relevance to society, technology, business or any other aspect of life. This provides an opportunity for students to employ important skills such as critical thinking, communication, problem-solving, research, teamwork etc. along with specialised knowledge and contextual understanding learnt over the previous 3 years, apply it in practical contexts, and provide actionable solutions to pressing issues.

Students are expected to declare their willingness to pursue the fourth year before the end of semester 5 of the undergraduate program.

Highlights of the 4th Year

- Students have to complete 36 credits in the 4th year.
- The program will enable students to build on the strengths of the previous 3 years and obtain an advanced understanding of their specialisations and hone their skills.
- The courses will be offered at the advanced undergraduate and master's level (300, 400 and/or higher levels). Students are eligible to take courses for which they have fulfilled the relevant prerequisites.
- A second summer industry internship
- The Interdisciplinary Major Project (IMP)
- A graduation project/dissertation.
- The program shall embrace multiple forms of pedagogy ranging from classroom learning, directed study, independent learning, practicum, experiential learning and seminars.
- Interests outside of the areas of specialisation can be pursued with open electives.
- Successful graduates will become eligible for the award of 4-year Honours degrees: B.A. (Hons)/B.Sc. (Hons)/ BBA (Hons)/BBA (Communications Management) (Hons).

Possible Major - Minor Combinations (optional 4-year undergraduate program)

Students who haven't declared a minor in the first 3 years have to compulsorily declare and earn a minor to fulfill graduation requirements. This is not applicable to students who pursue majors in Computer Science and Design, Data Science and Economics, and Design Management.

Global Connect

The Global Connect initiative at FLAME University is aimed at promoting FLAME's internationalization strategy. It supports FLAME University's teaching, research and service around the world. It is a mutually beneficial association of the University with leading international universities, reputed institutes and internationally acclaimed research bodies.

Some of the terms of these collaborations involve:

FACULTY EXCHANGE

Faculty from international universities come and teach at FLAME University and vice-versa.

STUDY ABROAD

FLAME University students get the opportunity to go to international universities for exchange programs, summer school and also spend a semester abroad. Approved study abroad credits can be transferred to substitute mandatory credit requirements in FLAME University.

CURRICULUM DEVELOPMENT

International faculty and FLAME faculty collaborate to develop the curriculum for various programs offered at FLAME University.

RESEARCH COLLABORATION

Students and faculty collaborate with resources at international universities for bettering their academic research.

Associations with leading institutes around the world

Global Liberal Arts Alliance

The Global Liberal Arts Alliance is an association of liberal arts colleges around the world. It seeks to serve as a beacon for educational leaders, faculty members and administrators. Its purpose is to exchange knowledge, expertise and experience among institutions committed to education in the tradition of the liberal arts and sciences. FLAME University is the only Indian university to be accepted as a member in the Global Liberal Arts Alliance.

Faculty at FLAME

FLAME faculty is an acclaimed group of scholars and researchers whose teaching is augmented by the contemporariness of their academic knowledge and real world experience. Not only are they eminently capable teachers but also compassionate mentors to students. Faculty also include members with outstanding international education background, scholarship, experience and orientation.

A roadmap of your time at FLAME

A well-planned semester system makes it easy for you to set foot on this exciting, interdisciplinary learning journey. While all the students are required to declare a major as a graduation requirement, they may choose to declare a minor as well to enhance their undergraduate experience. Some examples of major-minor combinations with their indicative course list are detailed below.

THE JOURNEY OF A FINANCE MAJOR AND ECONOMICS MINOR

Year 1

Semester 1

Term 1

Academic Writing
Digital Literacy
Introduction to Physics
Art and Photography
Planet Earth
Sports

Term 2

Critical Reasoning
Basic French I
Indian Society through Ages
Introduction to Visual Art
Social Welfare and Legislation
Sports

Semester 2

Term 3

Public Speaking and Debate
Introduction to Ethics
Basic French II
Modern Indian Political History
Mahabharata: Reflections of Ancient Indian Society
Sports

Term 4

Introduction to Environmental Studies
Financial Literacy
Introduction to Finance and Accounting
Introduction to Quantitative Methods
Principles of Economics
Thinking Like an Economist
Sports

Summer : Developmental Activities Program

Year 2

Semester 3

Mental Models- Frameworks for Thinking
Introduction to Operations Research
Managerial Economics
Accounting for Managers
Research Methods for Managers
Microeconomics I
Macroeconomics I
Professional Skills: Teamwork

Semester 4

Financial Management
Financial Markets and Institutions
Legal Aspects of Business
Design Thinking for Managers
International Economics
Developmental Economics
Professional Skills: Career
Discover India Program

Summer Internship Program

Year 3

Semester 5

Business Ethics and Corporate Governance
Investment Analysis
Financial Statement Analysis
Banking and Insurance
Mathematics for Economics I
Introductory Calculus
Technology and Society

Semester 6

Negotiations
Business Innovation, Entrepreneurship and Strategy
Taxation
Financial Instruments and Markets
Indian Economy
Microeconomics II

Year 4 (Optional)

THE JOURNEY OF A PSYCHOLOGY MAJOR AND ADVERTISING AND BRANDING MINOR

Year 1

Semester 1

Term 1

Academic Writing
Digital Literacy
Disasters: Natural and Man-Made
Introduction to Typography and Calligraphy
Archaeology: Theory and Method
Sports

Term 2

Critical Reasoning
Basic German I
Iconography: Meaning and Myths of Icons
Introduction to Sculpture
Introduction to Physics
Sports

Semester 2

Term 3

Public Speaking and Debate
Introduction to Ethics
Basic German II
Introduction to Sociology
Dawn of Civilization: Beginnings in River Valleys
Sports

Term 4

Introduction to Environmental Studies
Introduction to Psychology
Methods in Psychology
Introduction to Advertising
Quantitative Methods
Financial Literacy
Sports

Summer: Developmental Activities Program

Year 2

Semester 3

Mental Models- Frameworks for Thinking
Biological Bases of Behaviour
Social Psychology
Statistics in Psychology
Developmental Psychology
Principles of Management
Marketing and Advertising
Professional Skills: Teamwork

Semester 4

Quantitative and Qualitative Research Methods in Psychology
Educational Psychology
Experimental Psychology
Methods of Psychological Testing
Marketing Research
Advertising Strategy
Professional Skills: Career
Discover India Program

Summer Internship Program

Year 3

Semester 5

Cognitive Psychology
Psychology of Self and Identity
Fields of Psychology
Personality Psychology
Consumer & Audience Behaviour
Financial Management for Communication
Technology and Society

Semester 6

Abnormal Psychology
Industrial Psychology
Psychology and the Environment
Counselling Approaches
Brand & Product Management
Advertising Creatives

Year 4 (Optional)

THE JOURNEY OF AN ENVIRONMENTAL STUDIES MAJOR AND INTERNATIONAL STUDIES MINOR

Year 1

Semester 1

Term 1

Academic Writing
Digital Literacy
Precalculus
Basics of Theatre Arts
Indian Society and Culture
Sports

Term 2

Critical Reasoning
Basic Spanish I
Principles of Music
Introduction to English Literature
Elements of Probability
Sports

Semester 2

Term 3

Public Speaking and Debate
Introduction to Ethics
Basic Spanish II
Sociology of Gender
Graphic Novels
Sports

Term 4

Introduction to Environmental Studies
Fundamentals of Ecology
Introduction to Biology
Introduction to International Relations
Introduction to Comparative Politics
Financial Literacy
Sports

Summer - Developmental Activities Program

Year 2

Semester 3

Mental Models- Frameworks for Thinking
Fundamentals of Statistical Data Analysis
Energy, Economics, and the Environment
Introduction to Environmental Physics and Chemistry
Geography of the Environment
International Relations Theory
Political Thought
Professional Skills: Teamwork

Semester 4

Research Methods in Environmental Studies
Environmental Law and Governance
Climate Change
Environmental Impact Assessment
Indian Government and Politics

Campus LIFE

{ **Connected**
living and learning }

FLAME students come from small towns and big cities across India and abroad. These students, from varied educational, experiential and ethnic backgrounds form the fabric of the campus life at FLAME.

We believe that diversity breeds inquiry, debate and understanding. All our students are required to live on our green flourishing campus off the Pune-Bangalore highway.

With buildings that could capture every architect's imagination, we boast facilities that make campus living both invigorating and comfortable. Our students have the added advantage of living close to the faculty, thus creating ample opportunities for thought exchange and networking.

At any given time in the day, our students can be found debating current issues in the café of the Vivekananda Library or pondering over a piece in silence at the Raja Ravi Verma Centre for Visual Arts. Our largest lecture theatre, Chanakya, has hosted many industry stalwarts and the Kabir recording studio has created many vocal artists.

Infrastructure

The beautifully designed, high-tech campus has carefully crafted spaces for recreation, collaboration and sport. Differently styled classrooms, art centres, conference centres and administrative centres provide students and teachers with the flexibility to create learning environments on the go. Our library, a design marvel in itself, is home to thousands of books and multimedia resources. The student housing facilities on campus are equally unique. Needless to say, our spacious student dormitories are equipped with all modern amenities and Wi-Fi connectivity.

Sports and sportsman spirit are an integral part of the FLAME culture. Apart from the adjacent 18-hole golf course, the students at FLAME University have an international sized cricket ground, football, tennis, basketball and volleyball courts, outdoor Olympic sized swimming pool, track and field, futsal and handball at their disposal. A fitness and conditioning studio, badminton courts, billiards tables, squash courts, table tennis, carrom and chess ensure that FLAME's sports facilities give the best of colleges tough competition.

We also take our environmental responsibilities seriously. Our campus has modern, eco-friendly water harvesting, water recycling, and solid waste management systems. Safety is never compromised at FLAME. Trained security professionals are on duty round the clock, providing a secure environment for students and teachers alike. CCTV surveillance is installed at all key locations and fire safety mechanisms such as fire extinguishers, smoke and heat detectors and sensible evacuation plans are in place as well.

Other facilities on campus include provision stores, photocopying facilities, an infirmary, an ambulance and a shuttle-bus service to Pune, a bustling metropolis in itself.

Student engagement on campus

Students are expected to fully participate and contribute to their FLAME experience in various ways. You can be a member of the student council, hone your leadership skills and serve as a bridge between the students and the administration. You can even show your enthusiasm by joining one of the many student clubs on campus, or start your own. Representing your House and University in various inter-house and inter-collegiate competitions is always valued and encouraged at FLAME. Our largest in-house fest is the FLAME Fest, an annual inter-house cultural event where student Houses compete for top prizes in debating, dancing, singing, public speaking, drama etc.

Students are also encouraged to participate in Kurukshetra, an inter-collegiate sports competition that attracts over 100 colleges. Trophies in cricket, football, throw ball, basketball, badminton, table tennis, swimming and other sports are up for grabs.

FLAME is also home to exceptional Investment and Entrepreneurship Labs. With a focused approach to developing holistic financial literacy and long term thinking, the FLAME Finance and Investment Club delivers the concepts of value investing. Learning tools like investor conferences, interactions with industry experts and stock market challenges are an integral part of this experience. The FLAME Entrepreneurship Lab gives hands-on experience about the creation, inception and management of an entrepreneurship venture.

FLAME also has an alumni association that serves as a professional and personal networking channel for our alumni and current students. All our students are torchbearers for FLAME and we value them deeply.

Guest Lecturers

A fully residential living experience at FLAME University means being surrounded by constant inspiration. Avant-garde thinkers, artists and business leaders often visit us for student lectures and interactions unlike anything else. This interaction is an open forum for questions, answers, insights and stories. Our past speakers have included:

Deepak Parekh
Chairman, HDFC

Uday Kotak
Managing Director, Kotak Mahindra Bank

Narayana Murthy
Co-Founder, Infosys

E. Sreedharan
Metro Man of India

Shubha Mudgal
Indian Classical Singer

Montak Singh Ahluwalia
Former Deputy Chairman, Planning
Commission of India

A week in the life of a FLAME student

FROM THE CLASSROOM TO THE FIELD

A time is set aside for mandatory sporting activities every day.

ENRICHING CLASSROOM STUDY

Brilliant minds are at work on both sides of the table in a classroom. Accomplished academicians talk about elegant theories and powerful practitioners talk about how they work in the real world. From IITs to IIMs to Stanford or Cambridge, we have the best minds to engage with students week after week.

IDEAS ARE BREWING

It's time for some freshly brewed coffee to stimulate your mind at the Café and Lounge on the ground floor of the FLAME Vivekananda Library - an architectural marvel in itself.

GUEST SPEAKERS

A prominent speaker comes to visit and is holding a lecture at the Chanakya Lecture Theatre. They could be artists, industrialists or sports persons. They will all inspire you, regardless.

STUDENT CLUB MEETINGS

With more than 45 clubs on campus, chances to nurture an interest and participate in events are great many.

CONTINUOUS CAMARADERIE

A regular stream of art exhibits, theatre performances and musical events bear the promise of many a memorable evening. Participate or watch - the choice is yours.

4

Career PATHS

Where will your
FLAME undergraduate
degree take you ?

As far as you are willing to go!

Whether inclined towards postgraduate school or the world of work, your FLAME undergraduate degree is designed to get the best out of you. You can thrive as a financial expert, designer, entrepreneur, writer, researcher, lawyer, analyst and public leader.

Career opportunities

Our program prepares our students for a range of careers like:

- POSTGRADUATE EDUCATION
- TECHNOLOGY
- FINANCIAL SERVICES AND RESEARCH
- ENTREPRENEURSHIP
- PUBLIC POLICY AND ECONOMIC THINK TANKS
- JOURNALISM
- ADVERTISING, PUBLIC RELATIONS AND DIGITAL COMMUNICATIONS
- GOVERNMENT AND SOCIAL FELLOWSHIP
- PSYCHOLOGY AND BEHAVIORAL SCIENCES
- BUSINESS DEVELOPMENT
- CONSULTING

The difference interdisciplinary education makes

The interdisciplinary education philosophy at FLAME and our unique major-minor combinations make it possible for you to be a musically inclined mathematician, or a marketing expert with a psychologist's sensitive and nuanced eye. Our experiential learning and open elective courses further add to your career development, leaving you with plenty of options once you graduate from FLAME.

Career and placement support

FLAME has an in-house career and placement support centre that works closely with business houses and other organizations to make sure the best of workplaces come to the campus for our annual placements. Your placement journey starts from the day you enroll at FLAME. We strive to facilitate students in finding recruiters that fit their skillset and also provide training in essential skills.

Admissions

You are much more
than your marksheet

Who is a FLAME student ?

At FLAME, we value your entire experience. Our skilled admissions team takes your holistic achievements into consideration while reviewing your application.

While academic scores are important, we want to meet the person behind them and learn what they value and care for. We are looking for community builders, involved learners and critical thinkers. We are looking for students who can strengthen the connection between living and learning, and participate in everything FLAME has to offer inside and outside of the classroom. We are looking for good communicators who can articulate their case for admission at FLAME.

Our students are inquiring, imaginative and expressive; and we want it no other way.

We also encourage you to know us and visit the FLAME campus. Book a campus tour online (campustour.flame.edu.in) and we will be happy to receive you.

Scholarships

We offer merit and need based scholarships that recognize the inherent excellence and distinctive attributes of students, thus ensuring that FLAME University attracts the brightest of minds.

The scholarship awards a partial or full program fee waiver. The final internal scores in the admission process is the primary consideration for scholarships. This scholarship will be announced at the time of admissions and will be included in the offer letter of selected candidates.

We also award special scholarships for achievers or outstanding all round performers in diverse fields. Our scholarships are typically given to national or state rank holders; national or international sports champions and scholars who have made a mark either in the arts or the sciences.

Fees

Our all inclusive fee structure comprises academic, boarding and lodging costs, along with mandatory sports courses, medical expenses and counseling.

Please visit our website for detailed fee structure (fees.flame.edu.in).

The admission process

Our application process is simple and elegant. You are required to register on our website, apply.flame.edu.in, and apply early. Once your application is submitted online, our counselors will review it.

All applicants with good academic performance, a wide array of extracurricular interests and a strong statement of purpose will be invited for the FLAME Entrance Aptitude Test (FEAT), an essay and a personal interview (PI) before final communication about their admission status. If you have taken the SAT/ACT, you can opt out of taking the FEAT and sit only for the Essay/PI.

STEPPING-STONES TO A PLACE AT FLAME

- Strong performance on the FEAT (FLAME Entrance Aptitude Test) or the SAT/ACT
- Essay and an Interview
- An articulate and compelling statement of purpose
- A robust overall academic record
- Participation and involvement in extracurricular activities

We follow a sliding principle for selection, where we shortlist applicants based on their overall performance on all the parameters enlisted above. Details about the minimum eligibility criteria for the undergraduate program at FLAME University can be found at apply.flame.edu.in. Please note that it is your responsibility to check whether you are eligible to apply for the undergraduate program at FLAME University as per the eligibility criteria outlined on our website. FLAME University has full right to disqualify you at any stage of the admission process if found ineligible. In such a case, your admission, even if selected, will stand annulled.

FLAME University has been established as a state private university vide the FLAME University Act 2014 of the Government of Maharashtra. It is a Jain Minority Institution.
